

DOCUMENT SECURITY YOU CAN BANK ON

MARKETPLACE CHALLENGE

Over recent years, there has been a dramatic jump in all forms of counterfeit financial instruments. The industry has seen an increase of more than 500% in counterfeit money orders, cashier checks, bonds, bank drafts, stock certificates and account statements making check fraud and counterfeit negotiable instruments the dominant security problem facing the financial industry. Sophisticated digital scanners and copiers are being used to create look-alike documents that undermine consumer confidence and inflate operating costs. As a result, there's never been a greater need for sophisticated multi-tiered anti-counterfeiting paper protection.

AUTHENTIGUARD® SOLUTION

Document Security Systems has proven security solutions designed to ensure the authenticity of any type of financial instrument. Our AuthentiGuard® technology suite includes advanced overt and covert solutions that are cost-effective and that can be layered for unmatched levels of security. From Pantograph 4000™, Prism™, Laser Moiré™ and On-Demand™, Document Security Systems' products deliver premier protection against counterfeiting, illicit copying, scanning and photo imaging.
